SKRIBBIN

Bill Nielsen, home from the Green Lake sector where the trout fishing exceeded his expectations, and amazed a dormant appetite for the cold water aquatic. Says it was a great vacation, cutting out the mosquitoes, which most of the vacationists I have talked with complain about. Bill says warm weather dislodged an avalanche of snow, and where some 14 cabins stood before the slide started, now two remain, which convinces me that I like my snow on the level.

There are fewer out-of-state cars lately, which makes me think the vacation season is drawing to a close for some of the easterners and they are headed back to the wild prairie. However, with improved highways and numerous routes there isn't anything any more as a restricted season to make the trip to California. That's why we have the All-Year-club.

There is almost as many opinions about what to do to improve the orange market as there are oranges. One grower will tell me what he would do if he was running the shop, and the next fellow wouldn't do it. So what? Maybe out of a variety of opinions some suggestion might be made to help the situation. It is a cinch if we only had about half as much fruit to ship, that would help some. And it may be the solution. Let us have those who argue against the policy of scarcity, and vigorously against the policy of destruction.

Some 35,000 boxes of oranges went export last week, which helped lighten the domestic load. The export demand has been very helpful this year to absorb a surplus crop. Estimates for next year are for a smaller production. The new set is reported quite spotted.

At least Corrigan wasn't crowded on his flight to Ireland. The going was much tougher in downtown New York.

Fashion note says short skirts are coming back. Gee, and I thought they were here already. Now we've got something to look forward to.

The New Deal is puzzled about the surplus corn crop. There is too much corn now, and a whopper crop to be harvested. We should have more hogs to eat more corn so we can eat more pork so we can grow more corn. All the same as that song about old McDonnell having a farm.

Neither Russia nor Japan want a major war. Just the diplomatic kind. Both sides rather say it with "notes."

Dr. George Gallup, who collects opinions, cross-section kind, and he insists impartial, says in a recent survey the "yes men" are not so popular. Party preferences remain about the same, but the independence of thinking and acting is still self-assertive.

Drunk driving is all right for an illiterate heading, but it's mighty dangerous business on a crowded highway, and not to be advised even on side streets.

The presidential vacation has been extended into Georgia, and contemplated to include the Midwest and Southwest. Franklin D. is piling up the traveling mileage. That's about the only reason I would care to be president. I could get a few trips here and there, without taking out my check book. But a fellow who has that office is entitled to vacations for two reasons—to get away from the office seeker, and to escape the Washington weather.

And then there are some fellows counting cars, and other fellows counting their interest on borrowed money. It all depends on the point of view, or the shape your finances are in.

New York has an anti-horn-totin' ordinance. So far it has proven to be worth the money. At any rate it has enriched the city treasury some \$28,000. There (Continued on Page 3, Col. 3)

## Representation on Equal Basis Agreed To by Tokyo

MOSCOW. (AP)—It was reported today in Japanese circles in Moscow that the Soviet commissar of foreign affairs and the Japanese ambassador had agreed to suspension of hostilities in the Far East, effective immediately.

Ambassador Mamoru Shigemitsu, Japanese sources said, visited the foreign commissar, Maxim Litvinoff, and made a truce proposal which Litvinoff accepted.

TOKYO. (AP)—Japan now is prepared to concede to Russia equal representation on a joint commission for demarcation of the Siberian-Manchoukuo border, a foreign office spokesman said today.

Japan previously had insisted upon a commission of three representatives from Japan's protectorate, Manchoukuo, which in effect would have given Japanese the majority voting power in negotiations to settle the dispute over the exact location of the frontier line.

(Foreign Minister Maxim Litvinoff of Soviet Russia told the Japanese ambassador to Moscow that the commission should be composed of two Russians and one representative each from Manchoukuo and Japan. The concession announcement today, therefore, seemed of marked importance in diplomatic efforts to settle border fighting along the frontier.)

Although the war office said yesterday that Soviet Russian forces were reported to be constructing new defenses on the Siberian border, the Japanese people seem not to fear that the border incident will develop into a war.

Many profess to feel that an air raid over Japan proper is a possibility, without any declaration of war, and newspapers have given particular attention to aerial fighting on the Siberian frontier.

RUSSIANS DIN  
YUKI, Korea. (Near the Siberian Frontier). (AP)—Japanese army officers said today Soviet Russian troops had dug in near the crest of Changkufeng hill after an unsuccessful charge up the eastern slope.

A charge, which took place early today under cover of tanks, and mountain guns, was halted after a hand grenade duel with Japanese entrenched on the crest, the officers said.

The Russians then withdrew and dug in just outside the range of grenades.

SHELLING RESUMED  
Japanese said Soviet infantry, supported by 40 tanks, also had been repulsed in a charge against "Hill 52," a half mile south of Changkufeng.

Unofficial reports from the front said Soviet artillery resumed shelling "Hill 52" at 11 a. m., after a three-hour lull. They had ended a 20-hour bombardment at 8 a. m.

(A Reuters—British news agency—dispatch from Tokyo to London quoted Japanese advice from the border as saying Soviet warplanes bombed Japanese positions heavily during the afternoon. Reuters also said both sides opened fire artillery bombardments at nightfall.)

(Soviet occupation of Changkufeng hill in the disputed territory on the Siberian-Korean frontier and Japanese action to capture it provoked the present border fighting.)

LOSS HEAVY  
MOSCOW. (AP)—A communique from headquarters of the Soviet maritime army on the Siberian-Korean frontier said today that Japanese "suffered great losses" yesterday in fighting around Changkufeng hill.

The communique asserted the Japanese had made "a number of attacks" on Russian positions on the disputed hill, but had been driven back each time.

(Dispatches from Yuki, Korea, near the scene of the fighting, said the attacks were made by Soviet forces against Japanese positions and also described a heavy Soviet shelling of Japanese lines.)

# FDR Asks Georgia Support

WARM SPRINGS, Ga. (AP)—President Roosevelt said today he hoped that Lawrence S. Camp, Atlanta, running on a New Deal platform, would be nominated for the senate seat now held by Sen. Walter F. George.

The President, speaking at a luncheon in the Warm Springs foundation hall, said he was glad to have Gov. E. D. Rivers of Georgia and Camp, federal district attorney, with him.

REVIEWERS SITUATION  
With Gov. E. D. Rivers on his right and Camp on his left, the President said: "We are very much honored in having today as guests of Warm Springs Governor Rivers, who is an old friend of ours, and also a gentleman who I hope will be the next senator from this state."

Mr. Roosevelt conferred throughout the luncheon with Camp and Rivers, presumably going over the Georgia political situation. The luncheon was held on the eve of two speeches scheduled by the President.

George is seeking renomination. Other candidates opposing him are former Gov. Eugene Talmadge of Georgia and William G. McRae of Atlanta.

SURPRISE VISIT  
"This little visit of mine was a bit of a surprise," the President said. "This had not been planned in March when I was here. We were able to do it because I found that the quickest route from catching fish on the Pacific ocean was to come back by way of Warm Springs. I have been telling people that there is only one fly in the ointment. Down there on the equator, on what are called the Galapagos Islands, it is about 10 degrees cooler than it is in Georgia."

"We are very much honored in having today as guests of Warm Springs Governor Rivers, who is an old friend of ours, and also a gentleman who I hope will be the next senator from this state, Lawrence Camp."

MAKES UP FOR '37  
"This year I am making up for 1937. You will remember in 1937 I could only get down here in the spring and could not get here in the autumn, but this is my second visit in 1938 and I am coming back in the fall."

Other thousands of people, he said, will have all the annual Thanksgiving dinner when there is a grand entertainment and most of us eat too much. It is good to get this glimpse of you and I hope to see you again very soon."

Camp is among the three opponents of Senator Walter F. George, who is seeking renomination. Rivers is a New Dealer and Democratic national committee man from Georgia. So far Rivers has taken no active part in the senatorial fight.

George has fought numerous administration measures.

## Five Fishermen Fined \$500 Each

LOS ANGELES. (AP)—Skippers of five commercial boats today were fined \$500 each and their crews of 64 fishermen \$35 each for illegal fishing in the "Sports Area" off Catalina Island.

Skippers fined were Anton Melich, Tony Oreb, Andrew Vilich, L. Leiter and Katarin Ciesarto. Justice Ernest Wendle said hereafter he will impose jail sentences for such violations.

## Laguna Man Leaves \$15,848.99 Estate

The late Ann B. Mason of Laguna Beach, who died last March 23, left an estate worth \$15,848.99, Inheritance Tax Appraiser James B. Utt reported today.

Included in Utt's inventory were parcels of real estate in and around Laguna Beach, real estate in Los Angeles and San Diego counties, paintings, stocks and cash.

MERRIAM TO SPEAK  
LONG BEACH. (AP)—A native of Iowa, Gov. Frank F. Merriam will be speaker at the Iowa picnic Saturday in Bixby park.

## Scientist Cools Water 6 Degrees Below Zero Without It Becoming Ice

WASHINGTON. (AP)—A federal scientist described water today as a strange chemical combination which can stay liquid at temperatures far below its freezing point or freeze at temperatures several degrees above.

Dr. N. Ernest Dorsey of the bureau of standards said he has cooled water to six degrees below zero without having it turn into ice. This is 38 degrees below its "standard" freezing point.

Other investigators have found, he added, that under some air conditions ice forms on the wings of an airplane in flight even though the temperature is several degrees above freezing.

Water from different lakes and streams has varying freezing points, Dr. Dorsey explained, because of differences in the amounts of plant material and other chemicals dissolved or suspended in it. No two samples will turn into ice at precisely the same temperature.

# At Least 23 Measures On November Ballot Olson and O'Donnell Tideland Oil Propositions Qualify

SACRAMENTO. (AP)—At least 23 and possibly 25 propositions will appear on the Nov. 8 election ballot.

Deadline for qualifying propositions with the secretary of state was midnight, and Deputy Secretary of State Charles G. Hagerty announced today six initiatives, three referendums and 16 constitutional amendments got under the wire.

Two of the initiatives have yet to run a court gauntlet, with arguments before the state supreme court at San Francisco today. They are the measure proposing a \$30 weekly pension to all retired persons over 50 and a single tax measure to replace the 3 per cent sales tax.

The qualified measures include: The Olson and O'Donnell tideland oil bills and the Garrison revenue bond act, held up by referendum.

An initiative places sardine fisheries under jurisdiction of the state fish and game commission. Regulation of strike picketing and prohibiting sitdown strikes; creating a state highway and traffic safety commission separate from the motor vehicle department; prohibiting vivisection of impounded animals.

LOS ANGELES. (AP)—Two hundred heavy baseball bats were kept constantly on hand in the Los Angeles teamster union headquarters and issued to the union's "goon squad" when they were sent out to "take care of" rival unionists, non-union men, or even recalcitrant members of their own union, Paul McKnight, teamster, testified in the labor terrorism trial of nine other teamsters and officials.

McKnight, who has been one of the defendants in the trial, unexpectedly pleaded guilty late yesterday and turned state's evidence.

He related numerous details of fights and beatings in which he said he had participated. In each instance, he testified, he received his orders either from President Dexter Lewis of the teamsters' local or International Organizer Harry Dall of the defendants.

At the outset of his testimony yesterday, McKnight said Lewis once berated him for not taking part in a fight.

He testified that once he accosted a non-union man who said he did not belong because he did not have enough money.

"I hit him in the face and he fell over to the other side of the car," McKnight continued. "Later, Lewis told me we had done a pretty good job."

WASHINGTON. (AP)—Douglas Corrigan, the "wrong way" Atlantic flier, came to Washington today and the capital completely ignored committee pleas to make the reception "dignified."

Thronges of government workers scrambled out of buildings along historic Pennsylvania and Constitution avenues and cheered him as he passed.

Other thousands of people, he said, will have all the annual Thanksgiving dinner when there is a grand entertainment and most of us eat too much. It is good to get this glimpse of you and I hope to see you again very soon."

Camp is among the three opponents of Senator Walter F. George, who is seeking renomination. Rivers is a New Dealer and Democratic national committee man from Georgia. So far Rivers has taken no active part in the senatorial fight.

George has fought numerous administration measures.

# Britain Protests Bombing

LONDON. (AP)—Great Britain protested to insurgent Spain today against the aerial machine-gunning of the British ship Lake Lugano, asserting that in her opinion the attack was "deliberate."

The Lake Lugano, a merchantman of 2110 tons, was bombed last Sunday at Palamos, near Barcelona, by two insurgent planes.

After the bombardment, the attackers swooped down and machine-gunned the docks. None of the crew was injured. On Tuesday another insurgent plane sank the burning wreck.

PORT BOMBED  
MADRID. (AP)—A lone seaplane bombed the British-owned port of Gandia, 36 miles south of Valencia, today and machine-gunned the nearby town of Gandia. No casualties were reported.

One person was killed and seven were injured in an air attack on Alicante by six insurgent planes which dropped 70 bombs.

SHIPS UNDER FIRE  
GIBRALTAR. (AP)—Passengers of the British liner Llandaff Castle reported today a Spanish insurgent trawler fired upon the vessel in the Strait of Gibraltar.

They said the attacker held her up for 15 minutes before the Netherlands sloop Johan Maurits Van Nassau intervened.

WEDGE IN INSURGENTS  
HENDAYE, France. (At the Spanish Frontier). (AP)—Spanish government troops drove a deep wedge between the insurgent's strongholds of Balaguer and Lerida in Catalonia today in a sudden shift of the offensive to a new sector.

Dispatches from Barcelona said the Segre river had been closed between the two centers and a new government line established on the west bank of the wide stream, which flows south into the Ebro.

The offensive is the third trip-hammer blow government troops have dealt insurgent Generalissimo Franco's forces in two weeks of pounding at weak spots in his extended eastern front.

9-MILE DRIVE  
The first blow fell July 25 when the militiamen crossed the Ebro and advanced to Franco's onetime regional headquarters at Gandesa just as the government concentrated the main masses of the army far to the south for an offensive against Valencia.

No sooner had Franco shifted his manpower to the Gandesa sector, 12 miles southwest of the Ebro, than the government jabbed at his extreme right flank west of Teruel and rolled him back for a nine-mile advance.

During all this time, and unnoticed in the general surprise over the sudden government aggression, troops along the Segre were carrying out "feeler attacks."

Estimates Made On  
Corn, Wheat Crops

WASHINGTON. (AP)—The agriculture department forecast today a 1938 corn crop of 2,566,221,000 bushels and a combined winter and spring wheat crop of 955,989,000 bushels.

The corn estimate placed on Secretary Wallace's aides the task of determining whether a farmer referendum on marketing quotas would be necessary.

The new farm law makes a grower poll mandatory when the indicated supplies—the new crop plus surplus from previous years—would be "excessive." The surplus from past crops has been estimated at 350,000,000 bushels.

4 Convicted of  
Unionist Attack

LOS ANGELES. (AP)—Superior Judge Arthur Crum sentenced four men today to serve varying terms on their conviction of assault with deadly weapons—baseball bats—upon H. A. Hogue, an automobile salesman.

Hogue said he was beaten when he declined to join an automobile salesman's union which he understood the AFL was trying to organize.

The defendants were sentenced as follows: "Big Bill" Williams, one to 10 years in San Quentin prison; Roscoe Williams, two years in the county jail, and Elmer C. Naylor and Jack Lyndes, one year each in the county jail.

Baseball

# New Dealer in Idaho Loses To F.D.R. Foe

## Buckley Wins Ohio Primary; Hattie Caraway, Arkansas

By The Associated Press  
James P. Pope of Idaho became today the second administration senator to go down in defeat this year before a Democratic primary opponent.

He conceded this afternoon that Rep. D. Worth Clark, an avowed Conservative, had beaten him in yesterday's Democratic balloting in which New Deal support was the main issue.

BUCKLEY WINS  
The only comparable case was that of Senator Herbert T. Hatcher of South Dakota who lost his primary race to former Gov. Tom Berry, a Roosevelt supporter with Conservative leanings.

Pope's defeat tempered considerably the joy of administration lieutenants over Senator Robert J. Buckley's smashing victory over former Gov. George White in Ohio. Buckley had President Roosevelt's personal support. Pope had been supported by Postmaster General Farley, who spoke for him, and had been openly and recently defended by Secretary Hull for his reciprocal trade treaty stand.

SEN. CARAWAY WINS  
In the third senatorial race, Senator Hattie W. Caraway of Arkansas, another whom the President called "friend" on his western trip, apparently had a safe margin over her nearest opponent Rep. John L. McClellan.

The Ohio vote assured Democratic renomination of Buckley who, with 748 precincts out of 8601 reported, had tallied 428,419 votes to 176,523 for former Gov. George White. Buckley was praised by Mr. Roosevelt when the latter visited Marietta early last month on his way west.

RE. TAFT PICKED  
Ohio Republicans, balloting in smaller numbers than the Democrats, apparently nominated Robert A. Taft, son of the late president, to run against Buckley in November. In 7518 precincts out of 8601, Taft had 231,614 votes and Arthur H. Day, 203,487.

In Arkansas Senator Caraway, who like Buckley received public commendation from the President, was slowly pulling ahead of her nearest opponent, Rep. John L. McClellan. The count for 1523 precincts of 2002 gave Caraway 78,351 and McClellan 71,540.

Because of President Roosevelt's show of preference for Senators Caraway and Buckley the administration figured as an issue in their campaigns even though their opponents were by no means antagonistic to the White House.

ISSUE CLEARLY DRAWN  
In Idaho, however, the issue was clearly drawn. Senator James P. Pope, a 100 per cent Roosevelt man, was opposed in the Democratic primary by Rep. D. Worth Clark, who hammered home throughout his campaign that he was not an administration "yes man."

The vote in 611 of 802 precincts gave Clark 37,077 to Pope's 34,312. In addition to the straight out administration issue, other factors which entered into the Pope vote were his stand on reciprocal trade treaties, for which he was praised recently by Secretary Hull and his leadership in sponsoring (Continued on Page 3, Col. 7)

## Rubinoff to Leave Hospital Soon

DETROIT. (AP)—Physicians attending David Rubinoff, violinist, said today that barring another relapse, he would be able to leave Harper hospital soon.

Rubinoff, who has undergone five operations since an attack of appendicitis last May, suffered a severe hemorrhage last Friday, but responded to four blood transfusions and was able to sit up today.

## Highway Officials Assemble in Reno

RENO, Nev. (AP)—The seventeenth annual convention of Western highway officials opened a four-day session here today with more than 200 delegates and guests from the eleven western states, Texas, and the district of Columbia in attendance.

THE VOTE IN 611 OF 802 PRECINCTS GAVE CLARK 37,077 TO POPE'S 34,312. IN ADDITION TO THE STRAIGHT OUT ADMINISTRATION ISSUE, OTHER FACTORS WHICH ENTERED INTO THE POPE VOTE WERE HIS STAND ON RECIPROCAL TRADE TREATIES, FOR WHICH HE WAS PRAISED RECENTLY BY SECRETARY HULL AND HIS LEADERSHIP IN SPONSORING (Continued on Page 3, Col. 7)

NO COLD SHOULDER does rare Vulturine parrot get from Explorer S. Dillon Ripley, who has just returned to Philadelphia from a trip to New Guinea financed by the Academy of Natural Sciences. It's the bird's favorite perch. Ripley explains that he believes there are only two such parrots on the American continent: they were given him by New Guinea cannibals.

## Santa Ana Briefs

You Are Invited to Phone (3600) or Mail News Items to This Journal Department.

E. R. Urbine is a surgical patient at St. Joseph's hospital, having submitted to an appendectomy. His condition is reported favorable.

The entertainment committee of the Elks has issued an advance notice about a meeting to be held Oct. 25 in honor of city firemen and policemen, with H. R. Brinkerhoff in charge.

It is reported the A. V. Oil and Gas Co. Ltd., operating in the Costa Mesa area, is setting casing for a production test.

Small completions and difficulties in getting wells on production has caused some abandonment in the Yorba Linda district. Beth Petroleum is bailing water from Dillingham No. 1 at 2338 feet, and Signet Oil has suspended operations on Kraemer No. 2.

Franklin Nicky, troop master of Rotary Scout No. 24, will leave next Thursday evening with fourteen Boy Scouts for a trip into Canada. Preparations for the journey have been in progress for some time. It is to be a seventeen day automobile trip into the Owens Valley, Bishop, Lake Tahoe, Reno, Sacramento, Redding, Crater Lake, through Grant's Pass and into Portland and Seattle and thence into Vancouver. The Scouts expect to arrive home Aug. 28.

C. E. Utt has returned home from a trip into Mexico. The journey was made for the purpose of getting a somewhat better acquaintance with the aquatic family, and to roam around into strange places.

Charles Nussbaumer returned to the Sawtelle hospital today for further treatment. He has been home for several days, visiting with friends and enjoying his brief respite with the family. It is hoped that further hospitalization will afford relief.

Gus Daly of Stockton, Calif., was mingling with Santa Ana friends today. For a number of years this was his home. He has been officially connected with the Holly Sugar company. He is now on a leave of absence, and extracts a lot of pleasure renewing old Santa Ana friendships. Daly is a director of the California State chamber of commerce and has been attending a meeting in Los Angeles.

Attorney John Clarkson has opened his law office at 212 North Fifth street. He is one of the pioneer professionals men.

Breakfast club members and guests will be entertained tomorrow morning at the regular session by a group of young ladies from the Mary Morton and Vase studios, who will offer solos and dance numbers. Miss Delene Vinson will be the accompanist. Paul Sheffield is program chairman.

Santa Anans who formerly lived in Colorado today were planning to attend their annual picnic reunion in Sycamore Grove park, Los Angeles, Sunday, Aug. 14. Basket dinners will be eaten at noon, according to today's announcement by Bill Campbell, president of the Colorado State society.

Members of the retail clerks' union No. 1137 will meet at the Central Labor temple at 8 p. m. Thursday. President W. R. Pratt announced today.

Assemblyman Clyde Watson of Orange and his brother, Dr. Ralph Watson of Santa Ana, have returned from the Klamath river country and Sacramento. In Sacramento, the assemblyman attended a meeting of the state fish and game commission, in which he represents Southern California.

Christian Missionary Alliance members will gather from all parts of Southern California for a Labor day picnic in Santiago park here. Basil T. Underwood, picnic chairman, announced today. More than 300 members are expected.

Traffic at the busy Main-and-Fourth-street intersection was congested this morning as a Pacific Electric crew dug up a section of track to make repairs. One of the track sections had sunk a half inch below the other, and workmen set out to raise the fallen section and weld it to the adjoining piece of track.

# G.O.P. Rally In Indiana Aug. 27 To Open Mid-West Drive

## 50,000 PARTY LEADERS WILL MAP CAMPAIGN

WASHINGTON, (AP)—Republican leaders here are counting heavily on a party rally in Indiana Aug. 27 to get their fall campaign off to a lively start.

Every resource of the national committee will be thrown behind the gathering at Capehart farms, near Washington, Ind. Such varied activities have been arranged that it begins to appear more like a miniature convention than any ordinary political hobnobbing.

The rally, at which leaders predict an attendance of 50,000, will be preceded by a meeting in Indianapolis Aug. 26 of candidates and party officials from a dozen Midwestern states.

National chairman John Hamilton, Senator Townsend of Delaware, chairman of the Republican senatorial campaign committee, and Representative Martin of Massachusetts, chairman of the house campaign committee, are scheduled to attend.

They expect to swap ideas on issues and arguments, devise campaign strategy and build up enthusiasm among the boys on the firing line in Ohio, West Virginia, Kentucky, Michigan, Illinois, Iowa, Wisconsin, Kansas, Minnesota, Missouri, Oklahoma and South Dakota.

Selection of Representative Wadsworth of New York to make the keynote address has aroused interest here because he is regarded generally as one of the most conservative Republicans in congress. Whether his known conservatism had anything to do with his selection as a keynoter, however, has not been disclosed.

In contrast, the keynoter at the state Republican convention in Indiana June 29 was Rep. Bruce Barton of New York, who counseled the party to accept New Deal proposals which he deemed sound, but to fight unsound measures. To ignore President Roosevelt's popular appeal, he said, was blindness.

The selection of Indiana for the opening rally emphasizes the intention of party leaders to make their biggest fight in the Midwest this fall.

### POLAR BEAR DROWNS

CHICAGO, (AP)—Silver, a six-year-old, 500-pound polar bear at Lincoln Park zoo, was drowned in his own pool because he swallowed a rubber ball someone threw to him. The ball lodged in the bear's stomach and caused convulsions which sent Silver dashing against the bars of his enclosure. He stunned himself, fell into the pool and drowned.

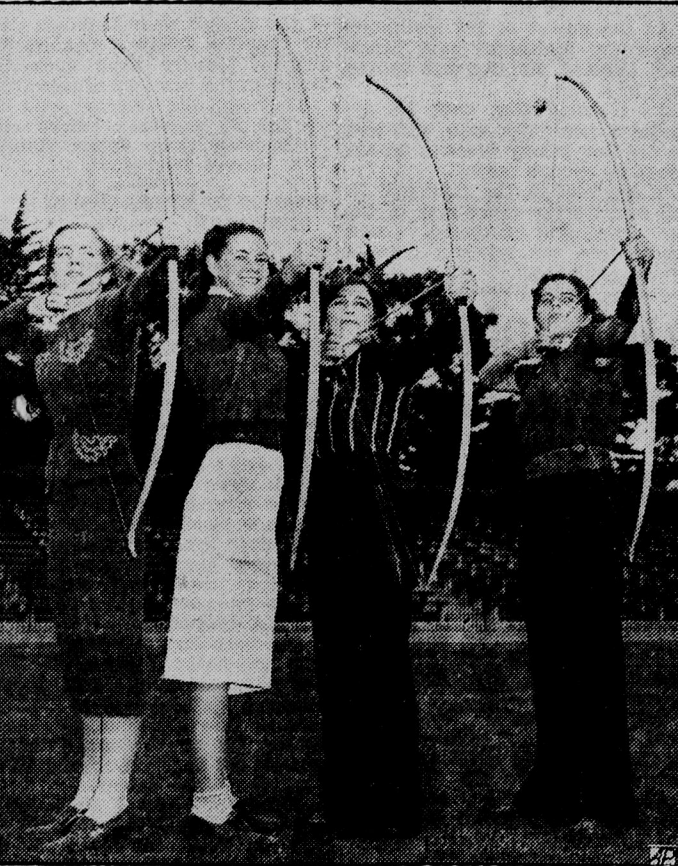

**HARLEM HEARTS** beat wilder since arrival from Europe of dapper Col. Huberto Julian, once head of Ethiopian air corps. He was Hubert Julian—no o's—at one time.

## Corrigan Flunks 'Lie Detector Examination'

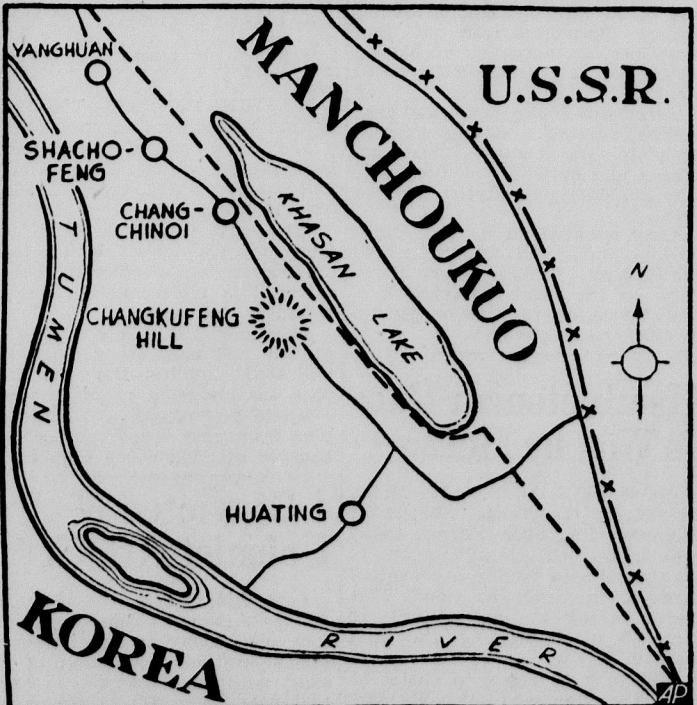

A "lie detector" needle made a quick takeoff—in the wrong direction—when Douglas Corrigan (left) said: "Certainly" to the question: "Did you really start for California?" at a dinner for the "wrong way" flier at Boston, Mass. Mayor Maurice Tobin (right) watches as Dr. W. M. Marston, inventor, reads the "lie detector's" recording. But the smiling Corrigan stuck to his story.

## They Compete For Archery Title

Among contestants are the 58th Annual Target Tournament in San Francisco were these women, some of the best archers in the country, and all competing for the title. Left to right: Priscilla Roberts, western champion; Shirley Patterson, Southern California champion; Gladys Hammer, former national champion, and Mary Louise Kusel. All are of Los Angeles. The tournament concludes Aug. 12.

## Japan Presents Its Evidence

This map, published in the Japanese newspaper Osaka Mainichi, is said by the newspaper to be a Czarist Russian general staff map that shows Japan, by Russian figuring, has the proper claim to the territory over which the two have been battling since July 29. The line at right (broken by X's), the paper says is the Russian general staff's notion of the boundary between Russia and what was then Manchuria, now Manchoukuo. The broken line that runs down to the bottom of the map, the paper says, is the Chinese official boundary between Manchoukuo and U. S. S. R. Korean boundary is Tumen river.

## Each Quint Has Slight Temperature

CALLANDER, Ont. (Canadian Press)—A slight temperature was recorded today by each of the Dionne quintuplets, in bed since Friday with throat infections. Although the throat infections have been blamed on tonsil conditions, Dr. Daffoe said he was not convinced removal of their tonsils is necessary.

**QUAKE IN ECUADOR**  
QUITO, Ecuador. (AP)—Eleven tremors shook Quito during the night, toppling cornices of many buildings and cracking facades. No casualties were reported.

## Woman Is Found Dead in Hollywood

HOLLYWOOD, (AP)—An unemployed nurse, who gave the name of Mrs. A. E. Brady when she registered at an apartment house two weeks ago, was found dead in her room last night. Detective W. L. Chase reported she apparently had taken poison.

## EYE TEST FOR MOTORISTS SEEN AS LAW

Predicting that within four years state legislation will make it compulsory for all licensed motorists to have an adequate field of vision and binocular vision as well as ordinary sight, Dr. Louis Jaques, Los Angeles optometrist, gave an educational talk on "How We Learn to See" at today's luncheon meeting of the Santa Ana Kiwanis club.

"The science of seeing should be taught in grammar schools as a subject like reading or writing," Dr. Jaques told the Kiwanians in tracing the prenatal and postnatal development of the eye.

"Eyes were designed for use in the wide open spaces," he said, "and evolution is far behind in adapting them for the close-up work of the machine age."

Dr. Jaques was introduced by E. A. B. Smith, program chairman, and President Maurice Enderle conducted the meeting.

Visitors included Ernest Bashor of Los Angeles, past district Kiwanis governor, and a visitation group from Fullerton composed of John Strickland, Steve McColloch, Norman Lombard and Louis Plummer.

## MARKS FACES NEW CHARGES

New charges will be filed against Charles M. Marks, East Fourth street pawn shop proprietor, Deputy Dist. Atty. Warren Schutz announced today.

Marks was to have been tried on charges he disposed of a pledged gold necklace before a year had expired. The necklace was a family heirloom belonging to an Anaheim man who pawned it last March and said Marks told him in July the necklace no longer was in the shop.

Schutz moved for dismissal of the original complaint before Justice Kenneth Morrison, announcing he would file a two-count complaint including both the original charge and a new one, that of violation of a city ordinance requiring regular reports of the sale of second-hand goods. Marks had pleaded not guilty.

## He Just Told Them To Wash on Different Days

FINDLAY, O. (AP)—Police Officer Wayne Ethell used the wisdom of King Solomon if not the king's method in arbitrating a wash day dispute between two housewives over the use of a clothesline.

One woman accused the other of taking her clothes off the line and throwing them in the dirt. Officer Ethell advised them to do their washing on different days.

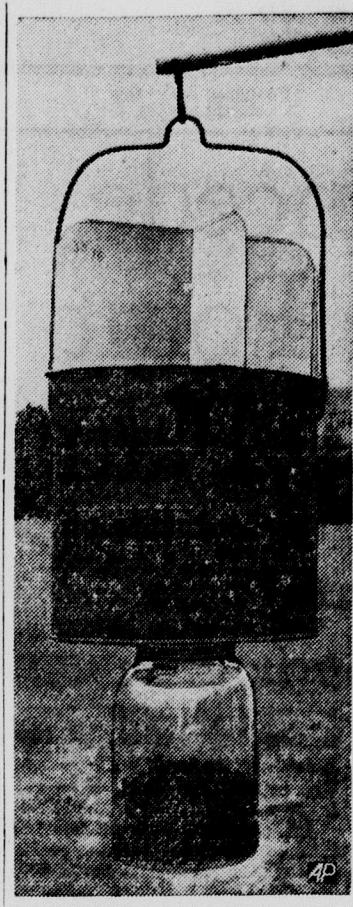

## Youngster Protects Papa's Whiskey

EAST LIVERPOOL, O. (AP)—Police here arrested a staggering man who pulled a little red wagon with a 3-year-old boy in it. Arresting officers said the child held a bottle and when they tried to take it from him, he hugged it closer and screamed: "You can't take my daddy's whisky."

## Steals Lighter but Returns It for Repair, Is Arrested

EL CENTRO, (AP)—Thomas Ellis, 26, crowded his luck. So today, he looked forward to a 90-day jail term.

Ellis, indignant, walked up to a clerk in an El Centro store, displayed a cigar lighter and demanded repairs.

"The clerk looked at him, at the cigar lighter and replied: 'We'll see what we can do for you.' Then he called police."

The clerk complained to Police Judge Lee Nuffer that Ellis stole the lighter "and then had the nerve to come back and demand that it be repaired." Judge Nuffer sent Ellis to jail.

## SAILORS, C.I.O. NEAR BATTLE FOR CONTROL

SAN FRANCISCO, (AP)—A bitter fight between the Sailors' Union of the Pacific and the CIO National Maritime union for dominance of United States seamen appeared inevitable today as Harry Lundeberg, SUP chief, announced a drive for 100,000 new members within two weeks.

Lundeberg, denying reports an AFL charter had been denied the SUP, announced a definite program between himself and William Green, AFL president, for signing up new members among Atlantic, Gulf and Great Lakes sailors. Most Pacific coast seamen belong to the SUP.

Lundeberg said the AFL would pay organizational expenses, and the SUP would supply organizers for the new drive. He added that the union in San Francisco, Seattle, Portland and San Pedro had voted to accept terms of an AFL charter.

The SUP has been an independent union since its expulsion several years ago by the AFL. Recently the sailors voted to return to the AFL fold, and Lundeberg, recently returned from Washington, D. C., where he conferred with Green.

Lundeberg, foreseeing a clash with the CIO union of sailors and other sea workers, said that "while we're a cinch to clash with the National Maritime union, there are a lot of bona fide seamen waiting to join one real union, and the one big union will take the best away from the CIO."

The SUP-NMU struggle already has begun on the west coast with the announcement by Lundeberg that SUP men hereafter would man ships of the Luckenbach lines, and would be paid off on the west coast.

This brought a rejoinder from Ralph Rogers, NMU west coast representative that "we hold the Luckenbach line ships by virtue of a National Labor Relations board election only with the consent of the NMU could members of the SUP be shipped on these vessels."

Lundeberg also repeated threats of a strike if necessary to prevent the U. S. Maritime commission from setting up a hearing through the U. S. Shipping commission office on the west coast for government-owned ships.

GARDEN GROVE, — Birthdays anniversary of Mrs. W. C. Broady, Mrs. C. A. Shackelford and Mrs. Ralph Broady were celebrated with a steak lunch at the Shackelford home on West Garden boulevard, Friday evening.

Tables were arranged on the lawn near the out-of-door fireplace. Two candle decorated birthday cakes were served. The dessert course were prepared by Mrs. C. N. Jones. An informal social evening followed the supper.

Present for the affair were Mr. and Mrs. Shackelford, Mr. and Mrs. W. C. Broady, Mr. and Mrs. Ralph Broady, Mrs. C. N. Jones and Carolyn, the Rev. and Mrs. C. N. Jones and Mrs. Albert Stuart.

the next few weeks, but you will have something nice on hand for the very early hot weeks that always come by you surprised. And, somewhere along in May, there will be for the woman with quick eyes, there are such amazing things to be found at the sale!

A very smartly made print ensemble or a sheer combination—their time in the millinery, simple-line type is always good. And, too, there are those beloved shirtwaist blouses which always fit in everywhere. And it wouldn't hurt to pick up a fresh wide-brimmed straw for the new frock. Millinery departments these days have a perfect gem of a hat that just happened to get left over and can be picked up for song!

Two Japanese airmen recently flew two heavy, German-made passenger liners from Berlin to Tokyo.

Deputy Sheriff Walt Dungan, who lives in Buena Park, worked overtime unexpectedly yesterday evening.

When Deputies Tom Murphine and Frank Cagle answered a call to Garden Grove road and Harbor boulevard, they found Dungan already had the situation well in hand. The situation was Dorne Chaffee, 38, Los Angeles boat worker, whom Murphine and Cagle booked in the county jail on drunk charges.

He gave her an opportunity to continue the flirtation she had started so successfully last night. At the same time, she could ask a few subtle questions that might give her a clue as to whether or not he had taken her spooning seriously.

"By the way," she said. "I'm

Tommy made no reply to this. He began to think that Miss Smith was overdoing things. He knew that walk through the pines—and how romantic it was. . .

## W.C.T.U. Has Election Of Officers

Although absent as delegate of the local chapter to the national Women's Christian Temperance Union convocation in San Francisco this week, Mrs. Linnie Cruzen was yesterday elected to the presidency of the Santa Ana unit to succeed Mrs. Effie Means.

Election was held coincidentally with the group's annual report meeting, at the Congregational church bungalow. Named to serve with Mrs. Cruzen were Mrs. Means, first vice-president; Mrs. Nannie Judd, second vice-president; Mrs. Mina Tidball, corresponding secretary; Miss Sadie McConaughy, recording secretary; Mrs. Kate Kettle, treasurer; Miss Elizabeth Wynn, assistant treasurer, and Mrs. A. B. Thompson, auditor.

The Santa Ana Union is enthusiastic about plans of all Southern California chapters to join in a mass basket picnic this coming Saturday at Echo park, Los Angeles. Purpose of the gathering is to fete those national convention delegates from all over the country who are proceeding southward when the San Francisco meeting ends. Mrs. Means is in charge of the Santa Ana arrangements.

Formal installation of the new officers will occur in a fortnight, and the union's annual corporation meeting will be held Sept. 13.

At yesterday's session Mrs. N. H. Leonard led devotional, and Mrs. Burt Lowen of Kansas City and her daughter, Mrs. A. C. Elliott of Anaheim, were special guests.

## : MARY : STODDARD

Use of Make-Up by Girls Arouses Puzzling Questions

"Gilding the lily—and painting the rose—"

Those of us who love flowers and are fortunate enough to have gorgeous cathedral lilies and choice roses blooming there would be no thought of trying to improve on Mother Nature's artistic handiwork.

This same idea should apply to the bush of youth! Why in the name of goodness should a girl who has a naturally good complexion brushed by the magic touch of youth wish to make it over with a lipstick, eye pencil and rouge?

Several mothers have written me asking how they may diplomatically handle the "make-up" problem as regards to their daughters who are entering their first year of high school soon? "At what age should a young girl start wearing make-up?"

After all, it's only natural that there should be much discussion of this subject before the daughter is allowed to have her own powder and lipstick. Mother, appreciating fully the charm of the fresh, natural look about her little girl, wishes the child would not go in for cosmetics for another year or so. However, daughter's friends are wearing lipstick and powder—perhaps even rouge—and daughter won't be happy unless she does as her friends do. Perhaps some kind of happy compromise can be made.

About the worst thing you can do, Mrs. Mother—once you have given reluctant consent—is to say: "Well, all right. Go ahead and use a little of my powder now and then and pick a lipstick that isn't too dreadfully bright the next time you are in a store." Given that kind of sendoff, it will be years before your child knows how to buy cosmetics and how to apply them.

The average high school miss, if she is in good health, gets the proper amount of exercise and sleep and a balanced diet needs little or no make-up except powder for her shiny nose.

Take your youngsters to a sales

## Collegians Plan Dance Tonight

Inspired by their imminent departures for various colleges, members of that junior college organization of Santa Ana, the Pacific club, met last night and planned a farewell dance and party tonight, to be held in the Y. M. C. A. rooms. John Schrier, president of the group, is in charge of arrangements for the informal affair.

Those who will remain in Santa Ana for the coming year also made plans for a mass expedition to Hollywood bowl on August thirtieth, at which time they will hear the opera, "Martha."

Miss Jean Paxton was appointed general chairman of the club's next evening meeting, in a fortnight. Topic of the debate session will be swing music, with pro-speakers including Bill Sheppard, Dorothy Norwood, and Bill Yould, and con-speakers, Phillip Smith, Bob Heath, and Virginia Pritchard.

Luis Danz, writer, artist, and world-traveler, was featured guest speaker last night, intriguing his listeners with his thoughtful account of his observations of culture in Europe.

Present were John Schrier, Bob Fowler, Bill Sheppard, Miss Georgia Snyder, Miss Muriel Snyder, Gordon Bishop, Bob Heath, Walter Swanberger, Miss Jean Paxton, Warren Kennedy, Bob Scove, Miss Imogene Comford, Sam Teel, Phillip Smith, Miss Virginia Pritchard, Miss Joyce Wentworth, Miss Delpha Wollett, and many special guests who were Miss Ida Mae Newton, Miss Betty Le Blanc, and Lester Carden, Jr.

## MRS. EDGAR IS TRAVELER

Mrs. Oceana Edgar of 302 East Chestnut street, returned recently from a three weeks' trip to Vancouver Island. Accompanying Mrs. Edgar were her son and daughter-in-law, the Nelson Edgars.

The travelers enjoyed fishing and exploring the surrounding country, and visiting the old English hotels. The latter part of the month, Mrs. Edgar will take a ten-day trip to Yosemite with her grandson and his wife, Mr. and Mrs. George Horton.

person in whom you have confidence, then help her to select light-textured powder which matches exactly her natural skin tones. If she uses lipstick at all, she ought to have one that makes her lips, not scarlet or orange or brownish rust, but the shade they would be if they were naturally highly colored. The same applies to rouge.

And, for the very young, powder roulier is better than cream.

Your next job is to teach the child exactly how to use each item. Impress upon her that make-up is supposed to enhance, not distort natural beauty. Show her how to apply rouge sparingly and correctly, and tell her how important it is to wash it off with soap and water every night before she goes to bed.

In other words, the day you allow your daughter to have make-up is the day when kindly lectures on the proper use of it are very much in order. And remember—the best way to make something that the lectures will mean something to her is to make doubly sure that you are a shining example of them.

You can easily realize that there can be no definite age mark set as to when your daughter should start using light make-up. Some girls mature much more quickly than others.

This problem is as broad as it is long, and most certainly can be answered only in a general way, not as applied to individual cases.

## SUB-DEBS FETE MISS DOYLE ON ANNIVERSARY

Miss Eleanor Doyle's birthday anniversary was occasion for a delightful surprise party in her honor yesterday when her mother, Mrs. Evelyn Munger, and Miss Betty Holmes conspired to fete her.

Miss Doyle arrived at Daniger's to find a group of her school friends seated at a table prettily decorated in yellow and white, with dainty individual birthday cakes brought in as the climax to luncheon.

The group later adjourned to the matinee after congratulating Miss Doyle on her anniversary in appropriate fashion.

Present were Miss Betty Holmes, Miss Willia Fay, Miss Ella Torigliani of Bakersfield, who is visiting Miss Fay, Miss Barbara Tucker, Miss Alice McKee, Miss Bettie Timmons, Miss Wilma Borchard, Miss Louise Hoffman, Miss Carolyn Wells, Miss Marilyn Dick, Miss Lorraine Sweet and the honoree, Miss Eleanor Doyle.

## PICNIC ENJOYED BY FAMILIES AND CLASS

Two-In-One class of the First Methodist church had a jolly get-together and picnic supper last evening at Huntington Beach, with 55 members with their families present.

Mrs. Joe Randall presided at a brief business meeting which preceded an enjoyable session in the plunge.

Host committee for the evening was composed of Mr. and Mrs. George Cocking, Mr. and Mrs. George Randall, Mr. and Mrs. C. N. Grace, and Mrs. Ethel Kent.

## COLES VISIT FROM OREGON

Mr. and Mrs. Carl Edgar took Mr. and Mrs. Ralph Cole to Big Bear on Monday to visit with Mr. and Mrs. Victor Walker of Lowell street, who are spending the summer at the lake.

Mr. Cole, formerly at Tustin High school, will return to Eugene, Ore., on Friday, where he is coaching at the University of Oregon.

## DONALD BUTTON'S "Laurel Leaves"

MUSIC

"Bells on her fingers and bells on her toes, she shall have music wherever she goes—" promises to be the good fortune of many a Santa Anan in the coming season. Announcement reaches this desk that Machado, often called "the South American Heifetz" (although more romantic in his playing), will open Senior Ebells' fall program with his first North American concert!

Scheduled for a tour of Japan last year, he reached San Francisco at the time of the Panay bombing, straightway refused to leave California. He is to make a national concert tour shortly after his Santa Ana appearance, I understand.

Pinza will sing here in October. Casadesus is to play, the Federal Symphony promises a much richer, a more finished program, and we are off to a flying start.

Personally, I find it more interesting and comfortable to journey to Claremont rather than Los Angeles for outstanding concert attractions not offered here.

Marion Anderson and Jascha Heifetz are stellar attractions at Bridges auditorium, along with the aforementioned Pinza and Casadesus.

what warn that now is the time to think, and to plan about your fall concert-going! The time passes all too swiftly, and none who has a love for music within him at all should miss any of these things that are so fortunately locally available.

LIGHTS

Some at Laguna the stage is being set for "The Battle of the Century," a fast-moving laugh-provoking (and, I hope, not three acts) comedy takeoff on "If I Were King," this Saturday night.

Issue being forced by the Millier "fuzzy-painters" is that they saw the Garden of Eden first, and having had the neighbors in to admire the plush drapes, the brick-brace and the lazy Susan, they would promptly lay glass along the garden wall and set the dogs upon those who would wish to help them make their paradise more beautiful.

I don't think they've got something there, particularly when they appoint a see-sawing nimble-compoop and pariah as prophet. They might at least have gotten someone in for the summer who can be consistent!

CURTAIN

About Monday the curtain either rises upon the second term of Able to Point With Pride President Wesley Wall or a tyrant-dictator.

Some of us are quite determined Wall shall be returned in the fair, unbiased and intelligent manner that has marked his administration. None of us have the skeletons, the dirty wash and the sterile years that his narrow, bedizened, warped and fixated, goateed (and goatlike) revilers must, in any final evaluation, have to acknowledge.

Monday's curtain may yet rise upon a despot! I to God would it were not so!

## For Freedom And Frolics

HERE is a three-piece playset for those lazy days in the country. It links a tailored tuck-in shirt, shorts and front-buttoned skirt—all made of rayon crepe printed in blue, rose and wood-brown floral stripes. The braid sandals are in the same colors.

## ANNIVERSARY PARTY ENJOYED BY GROUP

Entertaining at a pleasant party last Saturday evening, Mr. and Mrs. D. W. Ellis honored the anniversary of Mrs. Raymond Marsile, at their home on Fairview road. The affair was a complete surprise to Mrs. Marsile when she found a large group of friends invited to meet her.

Small tables, centered with bowls of orchid pompon dahlias and Shasta daisies, were arranged for the serving of a "Dutch" supper. At dessert time, a birthday cake was brought in with tapers lighted, and the honoree was presented with a crystal relish dish from the group.

Following the dinner, cards were enjoyed by the group. Those present to celebrate the event were Mr. and Mrs. Raymond Marsile, Raymond, Jr., and Ronald Marsile, Mrs. Elizabeth Marsile, Mr. and Mrs. Charles Cook, Mr. and Mrs. Calvin Powers, Mr. and Mrs. C. V. Lawhorn of Bakersfield, Mrs. Walter Dille, Mr. Charles Hoffman, Miss Orville Meyers, Miss Ruth Ellis, Mr. Herbert Hayes of San Diego, and the hosts, Mr. and Mrs. D. W. Ellis.

## COSTA MESA GROUP HAS PARTY HERE

The Epworth League of Costa Mesa sponsored a skating party at the Santa Ana skating rink, Monday evening. Proceeds were to send delegates to summer institute at Camp Radford in the San Bernardino mountains.

Howard Grobe and Lester Smith were in charge of the affair, with approximately 125 young people attending. Prominent in the group were Mr. and Mrs. Raymond K. Eastman, advisors of the young people, the Rev. and Mrs. Abbe, and children, and Mr. and Mrs. Harold Elmer.

The group will hold another benefit skating party in two weeks.

## EASTERN FOLK ENTERTAINED

Spending a part of the summer in Laguna Beach are Judge Clifford L. Hilton and Mrs. Hilton. They have been guests of the Perry Lewises in their Tustin home. Judge Hilton is on the supreme bench of Minnesota.

Other guests in the Lewis home lately were Mrs. Arthur E. Phillips, of Chicago, and Mrs. Jeanette Birdsall of Pasadena.

## Tid-Bits

By DR. MARY E. WRIGHT

While the lovely tea hostessed by Mrs. Edgerton B. Sprague is fresh in the minds of the public I want to note that Mrs. Weston Sprague (Marjorie Lindsay) left Santa Ana last fall a pretty girl bride. Now she returns a stately, beautiful woman, who grew in stature while she was away.

Standing between two of the most charming hostesses in Santa Ana, her mother, Mrs. A. J. Leaky, and her husband's mother, Mrs. Sprague, she held her own with dignity, though so young, said, "If I couldn't live in Santa Ana, I'd like to reside in."

Among the lovely gown worn by guests at that same tea, Mrs. Oliver Halsell's pale blue and white silk print, with white accessories, was accented by a lovely yellow leather purse which gave a charming and unusual touch to her costume.

While W. Lester Tubbs was in the officers headquarters camp in San Diego, his wife and son, Gene, spent a part of every day swimming with relatives at Balboa, and with friends at Corona Del Mar, acquiring a good vacation tan.

The exhibition of paintings in the library now, the work of N. Gail Moulton (Nellie to her friends), is notable in so much beauty, especially in her marines.

My favorite is the one done in the Canadian Rockies, water falling over red rocks, where the rocks look wet.

Of the marines, the one painted from the Scottish coast is very beautiful—a sketch made hurriedly and finished later. One of a Laguna sunset has a striking violet haze in the background. Then there is a beautiful study of Strawberry creek at Idyllwild, which caused the artist considerable work. When painting it she stripped a gear on her car going into rough country.

In a popular cafe I saw the Horace Stevens family dining, father, mother, Horace, Jr., Milton and Ruth Joyce. Each time I see Florence Stevens I wonder at so young and lovely a looking mother with such grown manly sons. Ruth Joyce is developing artistic ability and stays very near her daddy.

One of my friends names herself "Ann Flanagan, Spinster." She is so good to look at, so happy and jolly in her ways, one knows the "spinster" is from choice. She gives loving care to her mother as she grows older.

A little garden plot at 612 Bush street drew my attention because it is filled with every kind of old-fashioned sweet flower. Mrs. G. V. Hoff, the silver-haired gardener, has utilized every foot of space around her bungalow apartment, and has panies, carnations, many kinds of colorful geraniums, a lovely blue moonflower vine and other trailing things. While keeping house and caring for her invalid husband she is cultivating beauty for all who pass to enjoy.

Looking across the street to the junior college tennis courts, I can't help but notice how much pleasure young people get there.

## DINNER PARTY COMPLIMENTS ARIZONANS

Entertaining at a formal dinner party last Saturday evening, Mr. and Mrs. Daniel J. Jerry, of 1334 South Parton, had as guests of honor, Mr. and Mrs. Richard McDonald, of Bisby, Ariz.

The guests were seated at a lovely table, arranged with pastel tapers and blossoms, and set with amber glassware. The summer formal of the women guests further carried out the pastel theme.

Following the dinner, Mrs. McDonald was presented with an in-laid serving tray from her hostess. The remainder of the evening was spent in reminiscences. Attending the event were Mr. and Mrs. Richard McDonald, Mr. and Mrs. John Maring, Mr. and Mrs. Florian Eickholt, and the hosts, Mr. and Mrs. Jerry.

## MRS. NELSON IS VISITOR

Mrs. A. L. Nelson of Los Angeles has been the guest of her daughter, Mrs. O. M. Stein, 2133 Greenleaf street, for two weeks. She will leave soon for Oakland where she will visit with friends.

While she has been with Mrs. Stein, Mr. Stein has been on fishing trips to Idyllwild and other mountain resorts. Mrs. Stein and her mother have enjoyed visiting points of interest in Orange county.

The Anthony brothers, Vern, Ed and Phil, play there almost daily—which is fine exercise, especially for one with inside work.

In the grounds of Bower's Memorial museum is a huge ox-cart, found on the slope of Mt. Hebron, in northern California. It had been used for hauling logs, pulled by 20 yoked oxen. The great wheels are 10½ feet in diameter, and its origin has been traced back more than 75 years.

My English grandmother, another Mary Browning, left me a small steamer trunk which has crossed the Atlantic seven times. The trunk was covered with horsehide, with the hair intact. In it were old coins dating back to 1600, old books of the sixteenth century, medicine cases used in her English family, spectacles with silver frames, silk dresses that would "stand alone," and many other treasures of antiquity.

The trunk and contents were stolen in the family's absence. Heirlooms of my mother's family were destroyed in the home by a fire, so with none left, that is why I so much enjoy looking at other people's antiques.

Among the Rafferty house furnishings is a very fine hand-carved cherrywood screen, with the embroidered revolving silk panels worn to shreds. Is it any wonder, when the screen is almost 100 years old?

Mrs. William Smart has a hand-carved walnut letter pocket hanging on her wall which belonged to her grandmother in Zenia, Ohio, 100 years ago. My mother used one very similar that had been her mother's, but it, too, "went up in smoke."

## MONTHLY BRIDGE PARTY HELD BY TOROSA GROUP

Very enjoyable was the monthly Torosa Rebekah sewing circle card party, which was held at the home of Mrs. Leona Talbot, West Third street, yesterday.

Luncheon was served at individual tables, which were centered with pink and white asters. Yellow gladioli were used in the color scheme of pastels. Cards were played, with Mrs. Irene Mitchell and Mrs. Elizabeth Ash receiving high and low in contract; Mrs. Anna Ream and Mrs. Della Miller, high and low in auction; and Mrs. Anna Scott and Mrs. Hattie Cozad, high and low in five hundred.

Co-hostesses at the event were Mrs. Edna Kinsella, Mrs. Kate Perkins, and Mrs. Nannie Myers. Present were the Mesdames Ophelia Snoddy, Alfrida Olsen, Anna Ream, Gertrude Butler, Susan Helfridge, Anna Scott, Hattie Cozad, Irene Mitchell, Edna Kinsella, Vera Hansen, Kate Perkins, Alice Martz, Mary Walters, Elsie Gardner, Della Miller, Helena Tunger, A. E. Tipple, Sara Gore, Anna Laurie, Elizabeth Ash, Margaret Springer, Maude Swarthout, Mary Kuhl, Martha Vandewalker and Margaret Springer.

A garden party is being planned for the next monthly meeting of the group. It will be held September 13, at the home of Mrs. Mary Kuhl, 608 Garfield.

## LITTLE MISS HAS GAY PARTY ON BIRTHDAY

Little Miss Wilmetta Carolyn Kuebler's fourth birthday anniversary was celebrated with a gay party for her and her young friends last Friday when her mother, Mrs. W. C. Kuebler, 1516 West First street, entertained a group of mothers and their children from 2 to 5 o'clock.

Games of every sort were enjoyed by the little folk, whose chief sources of amusement, however, were Wilmetta's Charlie McCarthy doll and the fancy candies, cookies and birthday cake at the table where Mrs. Kuebler served them refreshments.

Mothers present with Mrs. Kuebler were Mrs. Lee Gordon, Mrs. Willard Minor, Mrs. Jack Rose, Mrs. L. C. Harris and Mrs. Kenneth Pearson of Salinas. Guests of Miss Wilmetta were Ronald Gordon, Rosalie Bose, Jack Bose, Barblee Thompson and David Pearson.

## DEMOLAY MOTHERS HAVE MEETING

Mrs. E. G. Mann, 516 West Fifth street, was the charming hostess to a dozen Demolay mothers last night when they met for a social evening.

Mrs. W. G. Pagenkopp, president, was in charge of a brief business meeting at which time it was stressed that all mothers of Demolays are cordially invited to each session.

No prizes were given since the members decided at last month's meeting to total all scores at the end of each three months' period. Mrs. T. S. Hunter will entertain the mothers in her home next month, with Mrs. Cyrus Weehunt as co-hostess.

Present last night were Mrs. Herbert Allemen, Mrs. C. Warren, Mrs. Cyrus Weehunt, Mrs. Richard Preston, Mrs. Glenn Case, Mrs. T. S. Hunter, Mrs. Abe Bergsesser, Mrs. Bradley Smith, Mrs. Glenn Lycan, Mrs. Nell Neighbour, Mrs. Georgia Farren, Mrs. W. G. Pagenkopp and Mrs. Mann.

## MANY EVENTS PLANNED AT YACHT CLUB

Newport Harbor Yacht club activities continue to grow in size and enjoyment as the summer season waxes. A series of buffet suppers for each Sunday has been very successful since inauguration, going under the title of "Of-fice Buffets."

This coming Friday Mrs. Paul Fussell of the beach will be hostess to the regular bridge luncheon, for which reservations must be made in advance. Several Santa Ana matrons are planning to attend.

Races inside and outside will be featured Saturday during the day, with a dinner later at which Leona Mann and the yacht club orchestra will officiate.

The Argentine government has issued a decree criticizing the programs of the commercial broadcasting stations and appointing a committee to raise the cultural level of radio programs.

## Visit Of Former Local Folk Enjoyed

The many friends of Mr. and Mrs. Stanley Clem, who made their home in Santa Ana for so long and are now residents of Phoenix, Arizona, have greatly enjoyed the summer visit of Mrs. Clem and her two children, Miss Gloria and Billy Dick, who have been here since July first with Mr. and Mrs. Sam Long of Tustin.

Mr. Clem paid them a surprise visit over the past week-end, and to fete his arrival an eightsome of former close friends gathered at the beach cottage of Mr. and Mrs. Charles Swanner for dinner, bridge and reminiscences. He returned to Arizona Monday.

In the happy group were Mr. and Mrs. Clem, Mr. and Mrs. Natt Neff, Mr. and Mrs. Ray Lambert, and Mr. and Mrs. Swanner.

Many other formal affairs have been planned and will be planned for Mrs. Clem before her departure Sept. 1, at which time the children will enter school in Phoenix. She and Gloria and Billy Dick have spent the past several days in Los Angeles, and are expected back at the Long home tonight.

## MRS. TAYLOR ENTERTAINS AT EIGHTSOME

Hostess last night at a charming bridge party was Mrs. Ray M. Taylor, of 2341 Bonnie Brae. Zinnias and transvaal daisies were used throughout the home, adding a note of brightness to the rooms. Contract bridge was played, with Mrs. George Lippincott as winner. Following the game, refreshments were served at charmingly arranged tables. Those present at the affair were Mrs. Lloyd Banks, Mrs. David Terhune, Mrs. George Lippincott, Mrs. Jane Dixon, Mrs. Richard Martin, Mrs. A. Hardy, Mrs. John Vernon, Mrs. Joe Her-shiser, and the hostess, Mrs. Taylor.

**Lower Prices Due To Buying Power**

By buying practically all of its canvas direct from the mills, the Santa Ana Tent & Awning Co., Ltd., is able to offer its customers substantial savings on the scores of products it manufactures, according to Max V. Akers, manager. The company, with offices and plant at 1626-28 South Main street, makes awnings, Venetian blinds, lawn and garden furniture, lawn and porch chairs, beach and lawn umbrellas, heavy truck covers and other tarpaulins, cushions of all kinds, including the inner-spring type, and many other similar products. Waterproofing service is also offered.

With its policy of letting the customer choose his own patterns and colors at no extra cost, the company has built up a substantial business in custom-made lawn swings, porch and lawn chairs and lawn and beach umbrellas. The customers like the touch of individuality. Many of the company's products are manufactured and sold wholesale to firms dealing in these products. The phone number is 207.

**BASSETT HEADS BUILDERS HERE**

Home owners of Orange county owe much to the Orange County Builders Exchange, for this organization, comprised of the county's leading members of the building industry, insists upon high standards of workmanship and materials in all jobs done by a member. The organization owns its own building at Second and Main streets, Santa Ana.

Secretary and manager of the Exchange is G. W. Bassett, and in his hands rests the responsibility for seeing that the builders' code is observed. And also in his hands rests the responsibility for furthering the interests of the entire building industry in this county. The Exchange is always on the lookout to stamp out doubtful practices in the industry.

No matter what your building requirements, you can be sure of getting reliable materials and workmanship by phoning the Builders Exchange at Santa Ana 2560. Mr. Bassett will give you the names of several reliable firms in the classification you desire.

**Wind Tosses \$2000 In Gems Overboard**

NEW YORK. (AP)—Waterfront police hunted a hat today. What made the hat so valuable was a brooch pinned to it containing 92 diamonds—valued at \$2000.

It blew off the head of Mrs. Ogden Reid, wife of the editor of the New York Herald-Tribune, as she cruised on a yacht in the East river.

**CYCLONE IN NEW ZEALAND**

**BENFORD OFFERS SERVICE ON ALL ELECTRIC MOTORS**

Day and night emergency service is offered by the Benford Electric Motor Service, 409 West 5th street, Santa Ana. Any firm which has trouble with its electric motors at any time during the 24 hours can get quick attention by phoning Mr. C. C. Benford at 2070. As electric motors are not always careful to choose daylight hours to go "haywire," this is a convenient service for Orange county industries.

**COLLEGE QUESTIONS**

**Mark Hart Is Large Trucker**

Orange county's largest dump-truck operator is the title won by Mark Hart, trucking contractor, 341 South Lemon street, Orange. And this record has been gained in the short nine years Mr. Hart has been engaged in this business here in Orange county.

Services and products offered by the Mark Hart firm include: dump-truck service, sand, gravel, rock, decomposed granite, excavation by gas shovel and asphalt paving. Although he himself owns but 10 trucks, some of his jobs are so large that he operates from 60 to 75 trucks at times. He owns his own gas shovel and has his own sand and gravel pits. The phone number is Orange 912.

**L. A. County Plane Orders in a Month Total 32 Millions**

LOS ANGELES. (AP)—Los Angeles county airplane factories received orders totaling \$32,000,000 during July, an announcement of the board of supervisors stated today.

Largest went to the Lockheed corporation, Burbank, which will build ships costing \$18,000,000 for Great Britain. Another British order, of \$8,000,000, went to the North American Aviation corporation, Los Angeles.

The United States army ordered \$5,703,287 worth of new ships from the Douglas Aircraft corporation, Santa Monica, and a \$300,000 order went to the Vultee division of the Aviation Manufacturing company at Downey.

**Land Mines Add to Palestine Deaths**

JERUSALEM. (AP)—Fresh disorders in the Arab-Jewish strife in the Holy Land were reported today.

Two land mine explosions during the night resulted in the death of one Jew and the wounding of two British soldiers and a Jew. Nine persons were arrested in connection with the shooting of three villagers near Affule.

**Burglars Cut Hole In Roof to Evade Alarms on Window**

CHICAGO.—The Root Brothers, Herman and Martin, were a bit surprised when burglars entered their hardware store for the fifth time in five years.

They had all doors and windows wired and connected with a watch service after burglary No. 4. But when the thieves returned the fifth time they gained entrance by cutting a hole in the roof. Their loot was \$600 and merchandise.

**3 Taps on Manhole Cover Nets Liquor**

CAMDEN, N. J. — Federal agents, seeking the source of untaxed liquor, saw a passerby stamp three times on a manhole cover. The cover promptly opened, and an arm thrust out a bottle.

The agents also stamped three times.

They grabbed the arm—and its owner. Beneath the street they found nine gallons of illegal liquor.

The boa constrictor frequents dry, bushy regions.

COUNTY BOARD  
HEARS REPORT  
ON LOW-COST  
HOUSING PLANS

Interest in a \$1,000,000 low-cost housing program for Orange county was shown yesterday afternoon by county supervisors, as they heard a comprehensive report from Supervisor Harry Riley on workings of the program in other areas.

Members of the board indicated they might arrange a meeting with officials of the various cities to discuss possibilities of a housing program, although a majority agreed they intended to "go slow for awhile."

Agitation for such a program has been carried on for many months; supervisors still are not convinced, they indicated, whether or not there is actual need for such a complicated system and such large expenditures here as in industrial areas where there are large slum areas.

Melville Dozier, jr., head of the Los Angeles county authority under the Wagner-Steagall housing act, offered to Riley to come here and discuss the program with the local board. Gordon L. Whitnall, Santa Ana city planning consultant, made a similar offer.

Riley said he had visited Santa Bernardino, Riverside, Santa Barbara and Ventura counties. There, he said, "they're just thinking about it the same as we are." Los Angeles' program, he said, is under way.

The county would have to provide a director, office space, surveys and a draftsman before the program could begin, Riley reported. Expenditures would be paid back to the county within 10 years. The county would put up 10 per cent and the federal government 90 per cent, he added. Riley asked haste in getting the program under way, but his enthusiasm was not shared by other supervisors. Petitions have been before the board for several months asking for creation of a housing authority, but so far no action has been taken.

A. L. JOHNSON  
REACHES AREA

Arthur L. Johnson, secretary and legislative representative of the General Welfare Federation of America, Inc., arrived in Southern California today to address a series of mass meetings under the auspices of the General Welfare Advisory council of Southern California.

Officers of the Santa Ana center are planning to attend a conference with Johnson in Los Angeles this evening. These will include Mr. and Mrs. Frank M. Kendall, Mr. and Mrs. H. T. Jones, Mr. and Mrs. Moll and Mr. and Mrs. H. F. Kenny.

Johnson will make the first of his public addresses in Birch park, 7:30 p. m. tomorrow. Congressman Harry R. Sheppard will speak on the same program. Johnson is the author of the general welfare act, H. R. 4199, and Sheppard was the floor leader for the bill in congress.

Other public meetings on Johnson's schedule include, Genesha park, Pomona, on Friday evening; 7519 S. Hoover street, Los Angeles, Saturday afternoon; San Bernardino, Saturday evening; Miles Avenue park, Huntington Park, Sunday afternoon, and Gold Shell, Pasadena, Monday evening.

VETS TO CLOSE  
NOMINATIONS

Nominations for offices in the Santa Ana post, American Legion, will be closed at 8 p. m. tomorrow in a regular meeting in Legion hall, Com. Arthur Eklund announced today. The election is set for Sept. 8.

Jack Sullivan and Richard Kessler of Santa Ana, who attended Boys' State in Sacramento last month, will be special guests of their sponsors.

Further preparations for Santa Ana's participation in the 21st district convention in Huntington Beach and the national convention in Los Angeles will be made.

Bernie Soloist and  
Film Actress Wed

CINCINNATI. (AP) — Honey-mooning in Cincinnati today were Emanuel "Manny" Prager, 33, soloist with Ben Bernie's band, and Kathleen Matthews, 23, Hollywood actress, who flew here for the ceremony yesterday.

Miss Matthews, known in pictures as Jane Rae, met Prager during filming of "Love and Hises," Bernie said.

Russ Teachers  
On the March

ON PARADE—With multi-colored banners flying, here are members of the Teachers' Society marching in Red Square, Moscow, during the annual physical culture parade, in which 35,000 young athletes took part. The marchers, reviewed by Josef Stalin, and other Soviet officials, represented clubs from every state of the Soviet Union. The clubs have an estimated membership of 10,000,000 youths and girls.

COURT STATES  
DRUNK'S RIGHT  
TO SAFE WALK

Anecdotes of early courtroom and legal procedure constituted the subject matter of a talk by Attorney Franklin G. West at the Santa Ana 20-30 club meeting in Daniger's cafe last night.

One early case West cited was in connection with a drunk who fell into a sidewalk hole in San Francisco and sued the city. The court held a drunk is as much entitled to a safe place to walk as a sober man, and needs it worse.

In another case, the city of Columbia petitioned the assembly to make it the permanent capital of the state, the speaker related. The petition, containing 12,000 signatures, was a pigeon-hole. "Shortly afterward a man committed a crime and was sentenced to hang. His attorney took the original petition, tore off the top and presented it to the governor asking pardon. The man was pardoned."

Program Chairman Newell Vandermast, who introduced West, announced Congressman Harry R. Sheppard would be next week's speaker.

President Wylie Carlyle and Past-President James E. Walker will lead a delegation to a district meeting in Long Beach tomorrow night.

REVIVAL MEET  
OPENS HERE

Speaking nightly at 7:30 for the next several weeks, the Rev. C. Bill Dunn, of St. Louis, Mo., is holding a revival campaign at the Foursquare Gospel church, corner of Fairview and Sycamore streets. The evangelist was brought here through the efforts of the Rev. W. C. Parham and Alice Ann Parham, pastors of the local church. He has preached in 27 states, and has been heard on nationwide broadcasts.

Woman Suspected  
Running Wildcat  
Stage Arrested

RIVERSIDE. (AP) — As a result of charges filed by the California highway patrol that she was operating a wildcat auto stage, Mrs. Beulah Watson of Oklahoma City today was put under detention in the county hospital.

Her car, driven by Lloyd Fowler of Glendale, collided with another here Sunday. Mrs. Watson suffered a broken clavicle, the hospital reported today.

1904 Auto Crosses  
Continent to L. A.

LOS ANGELES. (AP) — A 1904 automobile is still good enough for George C. Green, Lambertville, N. J., machine shop operator. He completed a 4600-mile cross-continent trip in the antiquated vehicle yesterday.

Green paid \$165 for it when it was three years old. Top speed on the transcontinental trip was 30 miles an hour. Fuel consumption averaged a gallon to each 30 miles, he said.

TO ATTEND DEDICATION  
LOS ANGELES. (AP) — Sheriff Eugene Biscailuz and Supervisor Leland M. Ford next Monday will attend the dedication of Will Rogers' memorial highway (U. S. 66) at Amarillo, Tex.

## County Tax Rate Near \$1 Is Threatened

\$1,928,577 IS  
BUDGET TOTAL,  
UP \$437,875

Threats of a county tax rate of nearly \$1 per \$100 assessed valuation today drew fire from Supervisor N. E. West of Laguna Beach, who attacked the proposed \$2,000,000 budget as a side issue to another discussion.

West said he would vote against a possible 21-cent increase in the tax rate.

West claimed he was being "baited" by Supervisor Steele Finley of Santa Ana yesterday afternoon, when Finley hinted flood control promotions might be made through political considerations.

West said he would vote against the threatened tax rate was "about 17 cents too high."

As the budget stood, it would require a county tax rate on property inside cities of \$1.02, and a rate of \$1.06 on property outside cities, which must pay a two-cent rate for county library and a similar rate for road districts.

Last year's tax rate was 81 cents per \$100 assessed valuation for property inside cities, and 86 cents for property outside. The rate for this year for county library expenses has been tentatively cut from three to two cents.

MORE CUTS DUE

This year's budget has not yet been sliced to completion, and supervisors are planning further economies where possible. As it stands, however, the budget calls for general county expenditures of \$1,928,577, as compared with \$1,490,702 in last year's total.

Public hearings on the proposed budget must be fixed by supervisors in 10 days. The budget is scheduled to be adopted on or before Oct. 30, and the tax rate for 1938-39 fiscal year is to be set by Sept. 1.

BATHTUB BOYS  
AID TREASURY

The "Bathtub Boys" were handing each other orchids yesterday as a bumper crop of overtime parking tickets was cleared at all per ticket—in Santa Ana city court.

Judge J. G. Mitchell collected \$16 from eight overtime parkers and another \$16 from two speeders. The speeders, each fined \$8, were Donald Dowling, Monrovia, and John B. Atwood, Upland.

Atwood was fined a \$5 one from Gale Harmon, Santa Ana, for four tickets and failure to appear; \$4 from Jacqueline Bradford, Santa Ana, for four tickets; \$2 from Fred C. Avila, Santa Ana, for one ticket and failure to appear; and \$1 each from Ted Johnston, James Anderson, Herb Allen, and Marvin H. Crawford, Jr., all of Santa Ana, and William R. Anderson, Orange.

Boys Ride Horses  
3 Days for Visit

RIVERSIDE. (AP) — Three Moreno Heights brothers, the oldest 15 and the youngest 7, were in San Diego today—after a three-day horseback ride to visit their grandparents.

The boys are John, 15, Sam, 14, and Donald Norton, 7, sons of Mr. and Mrs. J. S. Norton. They stayed overnight at ranch houses, wrote their parents, and plan to leave Aug. 22 on the return trip.

Ford Foundation  
Assets 28 Millions

LANSING, Mich. (AP) — The state corporations and securities commission said today the annual report of the Ford foundation shows an increase of more than \$28,000,000 in its assets.

The report showed assets increased from \$723,770.21 cash on hand as of Jan. 1, 1937, to \$28,803,522.61 on Jan. 1, 1938.

The Ford foundation was organized "to receive and administer funds for scientific, educational and charitable organizations."

Bump Dims Eye,  
Another Cures Him

FORT WAYNE, Ind. (AP) — When Kenneth Fomnough was a small boy he suffered a head injury that left his eyesight blurred. Last week Kenneth, now 16, dived into Lake Wawasee and bumped his head again. Now his eyesight is normal.

Doctors said the jar probably relieved pressure on a nerve.

Promotion of Two Flood  
Control Engineers Voted by  
Board in Spirited Session

Promotion of two flood control department engineers was authorized yesterday afternoon by county supervisors—but not until after a spirited session which saw Supervisor Steele Finley accuse other supervisors of approving the change for political reasons.

The request was made in a routine letter from Flood Control Engineer M. N. Thompson, asking that Assistant Flood Control Engineer F. O. Bigelow be named to a post created by the board July 21, that of resident engineer on Prado damsite preliminary work.

Thompson asked also that Paul D. Pratt, present construction superintendent at \$200 a month, be advanced to Bigelow's old post at \$230 a month, as resident engineer, would be paid \$260.

"I can't see the necessity of the job," commented Finley.

"Well, we created the job last

month," said Chairman Willard Smith.

"Yes, but we don't need to fill it," said Finley. "I feel this is just a move to advance certain persons; let's change these salaries all at once. This is an opportune time to bring this up—but I'm not running for office; maybe a couple of years from now I'd be for it."

"I don't like the idea of being baited with political considerations," retorted Supervisor N. E. West. "I vote on these things as I see them, and politics doesn't make any difference to me. I don't like that way of talking."

When the roll was called, West, Harry Riley and Chairman Smith voted "yes." Finley voted "no," and Supervisor John Mitchell, who said he believed no salary changes should be made until a general revision planned for the time when the county budget is adopted, said "I decline to vote."

## Fire Station Insured

Fire insurance on a fire station was ordered yesterday afternoon by the board of supervisors, as the county got title to two more stations and sets of equipment.

Insurance will be written on the Midway City firehouse and ranger's residence, on motion of Supervisor John Mitchell of Garden Grove. Mitchell asked that the policy be bought from Ed Hensley of Midway City. It will provide for payment to the county if the firehouse or the fire engine are destroyed by fire.

On recommendation of State Forester Joe Scherman, head of the cooperative fire protection

service throughout the county, the board accepted equipment of the Cypress and Westminster volunteer fire departments.

Trucks owned by the two departments, both outmoded and with meager equipment, nevertheless will be valuable for emergency service in both communities, Scherman explained.

Both trucks will be overhauled and modernized and their garages painted; after that volunteer crews will be drilled.

Supervisors also approved a contract with the San Juan Capistrano Water company for use of its water during emergencies in that area.

## Flood Repair Fund Plea Lost

Lost somewhere in Sacramento, where it has been wandering ever since the March 3 floods, Orange county's plea for state "emergency" flood repair funds still was unanswered today.

Supervisor Harry Riley reported no luck on a query sent Gov. Frank Merriam by the Placencia Mutual Orange association, asking speed in allocation of the long-delayed funds.

The governor's polite answer said the application now was before the director of finance, and added supervisors would be notified as soon as an allocation was made.

"What's he mean by 'as soon as'?" chuckled Supervisor N. E. West.

Funds the county has been pleading for were asked from \$5,000,000 appropriated at a special session of the legislature in a bill introduced by Assemblyman Thomas Kuchel of Anaheim. Most of the fund still is in the state treasury, despite appeals from supervisors and other groups in the county, where it is needed for rebuilding of Santa Ana river levees razed by flood waters.

## Board 'Calls' Laguna Beach

Laguna Beach's threat to secede from the countywide police radio system had been "called" today by four members of the board of supervisors.

Only Supervisor N. E. West of Laguna Beach yesterday afternoon favored the county's paying a larger share than half the proposed telephone line charges to link Laguna's police station with KGXX, the county police station housed on top of the county jail.

Laguna will have to pay \$51 a month for its telephone line, with

the county contributing a like amount. Councilmen at the art colony had favored putting in their own radio system, which under federal rules would be assigned the same wave length as KGXX.

West asked that the county absorb all but \$28 of the charges, since \$28 is the rental paid by Newport Beach, closer to Santa Ana. Supervisors Willard Smith, Harry Riley, Steele Finley and John Mitchell turned thumbs down, with West's motion not getting even a second.

## \$45 Stand on Avenue Fought

W. P. Dunlap of Buena Park wants to erect a \$45 vegetable stand on Manchester avenue.

Supervisor Harry Riley doesn't want him to. Neither does the county planning commission—but he isn't much they can do about it, they agreed today.

Dunlap's application was recommended for rejection by the planning commission, which hopes for

a zoning ordinance covering Manchester avenue soon. The ordinance, however, is not yet in effect; and if Dunlap's building does not clash with existing regulations, Deputy Dist. Atty. J. E. Walker said, nothing can be done but grant the permit.

"I'd like to see Manchester kept free of these unsightly junk yards and shacks and ugly stands," said Riley.

## Two Ad Pleas Rejected

Two pleas for funds from the county advertising budget were rejected by county supervisors yesterday afternoon.

Chairman Willard Smith, advertising committee chairman for the board, explained the advertising budget for the year had been cut and no money was available for such promotion.

County supervisors shied away today from signing away for \$100 a mortgage on potential oil land.

Further investigation was demanded by Welfare Director Thomas P. Douglas on an offer by T. M. Frampton of Huntington Beach to pay \$100 for the release of a \$499 county mortgage on property near that city.

Requests came from the Orange County American Legion drum and bugle corps, which wanted transportation to the coming American Legion convention in Los Angeles; and the Laguna Beach Rotary club, which supported a request from the county council of the Legion for funds to bring visitors here during the convention.

## 710-Pound Tuna

GLOUCESTER, Mass. (AP) — Ben Crounshild, Boston sportsman, today exhibited a 710-pound tuna, believed the largest fish ever taken from these waters with rod and reel.

## Services Nightly

Revival meetings will be held nightly at 7:45 p. m. except Saturdays at the Full Gospel assembly, 1600 West Third street. The Rev. B. E. Lassister and Mrs. Lassister will conduct the services, Rev. Ernest L. Friend announced today.

INSTITUTION'S  
MANAGEMENT  
IS UNDER FIRE

More charges of mismanagement of the county juvenile home, frequent target for supervisory criticism a year ago, were hurled yesterday afternoon as the county board discussed the institution for the first time in months.

Starting off the discussion, which became heated before it subsided, was a letter from T. B. Talbert and Albert Sifton of the juvenile committee, group appointed by Juvenile Court Judge H. G. Ames to run the home.

REFUND ASKED

Talbert and Sifton said Supt. Fred Germany no longer was staying nights at the home, and requested the board to stop deducting a rent bill from his \$170 monthly salary. They also asked a refund of \$162 for board and room since April, when Germany moved out and a night supervisor was hired. The board passed the recommendation. Then:

"He's supposed to stay there," said Supervisor N. E. West.

"That's part of the conditions of his employment. That place has not been a home since I've been on the board; it's been a jail. We pay the bills and if they're not going to perform their duties, they're not going to get paid."

"I didn't know Germany wasn't there nights," said Supervisor John Mitchell, board committee-man for the home.

REMOVAL HINTED

"You don't go off at night and leave your own children," said West. "If Germany can't take employment on those terms, we will just request the committee to submit a series of names for a further choice."

"We're going to get in trouble," commented Supervisor Steele Finley, "if we start trying to tell them who to hire and fire."

NO JURISDICTION

"I don't suppose Germany spends much time there at all," observed Mitchell. "He's not there in the daytime—he's out running around; and he's not there at night. I don't know just what he knows about the children. Of course the judge told me we didn't have a thing to do with the home, that the committee was running it; I don't think they're right but there's nothing we can do."

Supervisor Harry Riley commented that Dist. Atty. W. F. Menton and Judge Ames both have said supervisors have no jurisdiction over the home. "I can't understand why all the confusion," he added. "Why are we trying to run somebody else's business?"

MOON TO DIM  
METEOR VISIT

While less-scientific Santa Anans gaze at an almost full moon tonight, local astronomers will be attempting to peer through the moon's brilliance at another aerial show.

The annual visit of the Perseid meteors, one of nature's most interesting displays, reaches its climax in a three-night show beginning tonight.

Astronomers said the bright moon would reduce the number of meteors to be seen, but they pointed out that many are expected to be visible between midnight and dawn.

Although high-powered instruments at Mount Wilson observatory will be trained on the astronomical show, most local amateurs predicted "too much competition from the moon, which is full tomorrow night, to make meteor-gazing worthwhile any of the three nights."

LABOR DAY  
BEACH AFFAIR

The American Federation of Labor's countrywide Labor day celebration will be in the form of a beach picnic at Huntington Beach this year, W. R. Pratt, committee chairman, announced today.

Plans have been made for various competitive sporting events and other amusement, and Pratt is counting on a crowd of 4500 organized labor men at the picnic, which will be an all-day affair Sept. 5.

Michigan Ave.; San Francisco, 220 Bush Street; Detroit, 315 Stephenson Bldg.; Los Angeles, 433 S. Spring Street; Seattle, 403 Stewart Street; Portland, 520 S. W. Sixth Street; Vancouver, B. C., 711 Hal Bldg.; St. Louis, 411 N. Tenth Street; Atlanta, 325 Grant Bldg. Copies of The Journal may be secured at any of these offices where full data regarding the Santa Ana market may be had.

### Looking Backward

In American histories of the future, the present period, which seems somewhat confused and a little bit futile to us close-up observers, may take on a glorified aura as a period in which the United States actually learned to keep out of war.

Historians' accounts may run something like this: "In the late 1930's the people of the United States were tempted several times to become involved in serious national quarrels in Europe and in Asia. Although the nation was laboring under what were known as 'hard times,' when wars are particularly hard to resist, the people, through their legislators, bound themselves by law to remain neutral, and they kept their pledge. Several European nations sent expeditions into the arena of the Spanish rebellion-revolution, but not the United States. Several times 'incidents' exerted a definite pull in the direction of involvement in Japan's undeclared war on China. All Europe and Asia seethed as the Siberian army of Soviet Russia began picking at Japan's flanks in Manchoukuo. The people of the United States, having learned a bitter lesson of the futility of trying to settle others' quarrels (1917-1918), kept their heads and made progress in the direction of civilization and a higher living standard when the rest of the world was insanely rushing toward disaster."

Anyway, that's what we hope the histories of the future will say. We wish we might guarantee it.

Senator Holt, West Virginia Democrat, is working at his anti-Roosevelt movement. Probably won't have much trouble getting Al Smith and Herbert Hoover to sign up.

### Phooey, New York!

New York City is in a turmoil of argument over its public statuary, and brave Robert Moses, park commissioner, has dared the wrath of many sculptors, their patrons, the arts commission and a fair-sized segment of the general public with the declaration that New York has "some of the world's worst statues."

Now our own interest and knowledge of statuary is almost confined to replicas of the Venus de Milo and a preference for equestrian statues in which the horses have both fore feet off the ground, after the manner of bucking rodeo ponies.

But we do not think that New York should be allowed to get away with the claim that it has anything any better or any worse than we have.

So, if someone whose judgment cannot be questioned will inform us on the subject we will be glad to notify Mr. Moses and through him the people of his city, that we have statues that back their worst clear off the boards. On the other hand—but perhaps we've said enough.

Japan apologizes for the slapping of Mrs. Thomas Massie by a sentry at Tsingtao. Let's see, what's the score in Japanese apologies?

### Imple-say Unk-bay

Some fiction "swing" stories are going the rounds these days, stories which use the elaborate and tortured vocabulary that has been dreamed up by the swingers and their following of jitterbugs.

Such words as noodling, ricky-tick, clamaroo, schmaltzer, cat, gator and dozens of other made-up phrases and expressions fill the alleged talk of the characters in the stories built against a swing background.

Trying to read the stuff without benefit of a glossary is impossible. It makes as much sense, just about, to the ordinary citizens as does swing music to a lover of symphony.

For the benefit of all concerned, and especially to save wear and tear upon the intellectual equipment of those who are struggling to give swing music a language all its own, it is more or less respectfully suggested that they adopt the old-day old-way fashioned-fay ingo-lay of-way ol-schay ays-day, and let it go at that.

Swing, we suggest, is to music as pig Latin is to ordinary language. Somehow they just seem to fit each other.

### Mexico's 'Ability to Pay'

It is one thing, says Mexico, for the United States to pay cash for lands which it takes over for governmental purposes.

But, says Mexico, her government can't be expected to follow the cash payment rule, because Mexico's economic situation "has not been as good as ours."

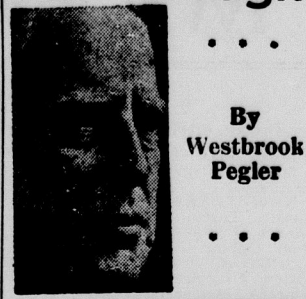

Such is the substance of Mexico's diplomatic refusal to arbitrate U. S. citizens' claims on expropriated lands. In replying, Secretary Hull might well point out that our government's "economic situation" has been such that it is now in its ninth consecutive year of operating on borrowed money. And our government continues to be able to pay cash for what it takes because it continues to be able to borrow the money. And our government is able to borrow the money because it continues its policy of meeting all of its financial obligations.

It's barely possible that Mexico's "economic situation" might be improved by similar treatment of her creditors.

### More Experience

The home in Hartsdale, N. Y., of Dr. M. S. Taylor, radio's widely known "Voice-of-Experience," has been rifled. So Dr. Taylor now knows how it feels to be robbed.

### Fair Enough

By  
Westbrook  
Pegler

NEW YORK.—It is impossible to deny that, as Edgar Hoover says in an article in Collier's, newspaper reporters sometimes do embarrass the so-called G-men and other police by premature publication of news which tips off criminals that the cops are close. But it is not necessarily true, and Hoover offers no evidence that the murder of the Levine boy in New Rochelle was caused or hastened by the conduct of the reporter who trapped the child's father into an admission by posing as an agent of the kidnappers in a telephone conversation. It would seem more likely that in this case and in the Mattson case the criminals never had any intention to return the victims, and killed them as soon as they conveniently could. A captive, living child is a dangerous handicap to a criminal who knows that a murder adds little if anything to the penalty he has already deserved. Hoover, who boasts that many of his agents are lawyers and that all of them, himself included, know evidence, makes an emotional accusation against the reporters in these two instances, but does not support it with anything that even resembles proof.

Do you want to know something about Hoover? He is spoiled. The American press has treated him as a sacred cow. His department is still talking about the glamorization of criminals long after the press took to glamorizing him and his men instead. He has been praised in proportion to the very fine feats of detection which his bureau achieved, and a little beyond, for the G-men have received entire credit for some jobs in which other agencies took part. He is a great personal press agent, and he has pet writers, or stooges with access to big newspaper and magazine circulation who scratch his back in return for material that glorifies Edgar Hoover and the G's.

I would like to point out, too, that, as Hoover himself has indicated more than once, there are a lot of crooked police and prosecutors serving crooked politicians in various cities in this country, and that, as he failed to point out, newspaper reporters often have turned up and called irresistible public attention to evidence which local officials were trying to ignore or were too stupid to discover. The Hall-Mills case in New Brunswick, N. J., was so badly handled that it was only in response to the work of reporters that the body of Mrs. Mills was exhumed after some time to reveal the fact that she had been not only shot but almost beheaded by a knife. It was the enterprise of a newspaper that compelled the prosecution of Walter Ward in White Plains after the local authorities had dropped proceedings against the son of a millionaire in a slight case of murder.

As Hoover has reason to know, the police of Kansas City are the minions of the most corrupt politico-underworld machine that this country has produced since the day in Minneapolis when several of the high-ranking police officials and even the mayor himself were sent to prison, largely through the enterprise of newspaper reporters for doing business not merely with prostitutes but with burglars and stickups, as well. Hoover knows that the Kansas City force is used to protect open gambling and prostitution in places holding the sanction of the organization, and to suppress these activities in plants whose operators do not pay their dues.

A reporter working on a big crime story in Kansas City cannot reasonably be asked to hold back or totally suppress news-evidence on the representation of such police that premature publication would be embarrassing. The police might be trying to cover up a pet criminal. Hoover has had experience with the Kansas City police. He knows that the same is true of much of rural Missouri and rural Indiana, and he has not been long since his own boss, Homer Cummings, was moved to say, apropos several inside jobs in the St. Paul police department, that there was something rotten in St. Paul.

He seems to need reminding, too, that his own bureau, the F.B.I., during his own service in general, has been guilty of crooked work, with particular reference to the Harding era, when Gaston Means was a G-man and William J. Burns was chief.

IMPROVING WITH AGE  
"My grandmother," announced Brown to the world in general, "is a wonderfully strong old lady. When I last saw her she was sitting at the fireside, patiently knitting."

Indeed! scoffed the listener. "And suppose that proves her strength?"

"Well, not exactly," replied Brown, quietly. "But if you had seen her as I saw her—knitting wire-netting with a couple of crowbars—I guess you'd agree that she's tough for her age."—Glasgow Citizen.

AND THE LEFTS  
"One thing you must say about boxers is that they are ethical." "What do you mean?" "Well, they must always look out for the rights of others."—

### EVERYDAY MOVIES

"You'd oughta fix your socks, Duke, the holes show through the holes in your soles."

### Twenty-Five Years Ago

AUG. 10, 1913

Rabbit hunters report plenty of game in the mountains near here, and bagging the limit is a regular thing among hunting parties. Al Goff, Charles Charlton and Dexter Kent easily shot the limit in a few hours yesterday.

A pair of socks was worth its weight in gold for E. E. Remsburg last night. Thirty dollars hidden in one of them was overlooked when a burglar ransacked the house and took other valuables. The burglar also entered W. F. Lutz's home, 1416 North Main street, and stole valuable jewelry, and attempted to get into George Preble's home nearby.

STANTON.—By a vote of 240 to 6, people of this municipality voted today to allow the north half of the territory to withdraw from the city and become county territory. This settles the question of incorporation, because the faction that wanted to disincorporate lives in the part that was allowed to withdraw.

The Sunset Telephone company tonight will inaugurate an all-night service to Newport Beach. Two girls now are on the boards during the rush hours, and a young man will be on duty during the night.

### Journalaffs

Howdy, folks! We like to eat in a restaurant where there is music. Sometimes the music helps us to forget the food, and sometimes the food helps us to forget the music.

Lil Gee Gee has decided not to install a built-in goldfish bowl in her new house-trailer. She's afraid that, driving over some of these rough detours, the goldfish would get seasick.

POPULAR MECHANICS  
The boating season is now in full swing, and Egbert J. Peanut-butter, youthful scientist, has just invented a handy device for vulcanizing canoes that spring a leak three miles from shore.

Lil Gee Gee is very much worried about herself. She used to walk around the block every morning before breakfast, but now, when she's halfway around, she says she's so tired she has to turn around and come back.

A Seattle octogenarian attributes his long life to the fact that he was born before germs were discovered, and had less to worry about.

NOW YOU TELL ONE  
"I always return borrowed books."

A really hard-boiled dance hall is one where the proprietor has to chisel the gum off the floor after every dance.

Little Homer can't sit still at the table. We think he must be a fidgetarian.

IN PLAIN ENGLISH  
Asked to paraphrase the sentence: "He had a decided literary bent," a city scholar gave this version: "He was very round-shouldered through excessive writing."—Glasgow Citizen.

### The Merry-Go-Round

By DREW PEARSON and ROBERT S. ALLEN

WASHINGTON.—After a long series of secret conferences, the Ford Motor company has made its peace with the justice department regarding its alleged violation of the anti-trust laws.

This grew out of an indictment by a South Bend, Ind., federal grand jury on charges that the Big Three motor companies—Ford, General Motors and Chrysler—were violating the anti-monopoly laws by secretly controlling motor finance corporations. The suits were based on numerous complaints made to the government by independent dealers and finance companies that the Big Three forced them to finance through their own companies.

Following the indictments, Ford and Chrysler opened quiet negotiations with the anti-trust division for an out-of-court settlement.

After several abortive attempts, Ford lawyers last week reached an agreement with the division. The justice department agrees to dismiss the anti-monopoly suit. In return the Ford company sets up a sort of code of fair-trade practice.

Details are kept secret temporarily for two reasons: (1) because the government wants to submit the agreement to the complaining independents for their approval before officially announcing it; (2) because a similar settlement is in the works with Chrysler. The justice department hopes to be able to make both agreements public at the same time.

General Motors, in line with its general stiff-necked anti-administration attitude, so far has remained aloof from the peace negotiations.

Note.—Donald R. Richberg, one-time NRA boss and White House intimate, was a Ford representative in the peace negotiations and helped bring about a settlement. Taft's Son  
One republican primary which the New Deal is watching closely is the Ohio senatorial battle between Supreme Court Justice Arthur H. Day and the millionaire son of the late President Taft.

In contrast to his brother Charles, Taft, Robert Alphonso Taft, the Ohio senatorial candidate, is a bitter enemy of the New Deal. He was the man who brought the Supreme Court suit testing out the gold content of the dollar. Brother Charles, on the other hand, was Landon's Brain truster, wrote a book friendly to Roosevelt, and was uninvited to make a Lincoln day address because he refused to damn the New Deal.

Despite Robert Taft's presidential lineage, Judge Day is the more colorful of the two men. The son of a country doctor, he worked his way up from hotel bellhop, has a notable record on the Ohio supreme court. He has been waging a poor man's campaign while Taft is reputed to have spent a quarter of a million dollars.

Judge Day was ahead until Taft unfloated the purse strings. Now it is an even break. Don't Go to Alaska  
A new "don't" should be written down in Jim Farley's political notebook. It should read: "Don't go to Alaska during an election year."

For while Jim was browsing through the northland, the American labor party made a deal with the republicans—which probably means democratic defeat in New York.

### The Mailbag

Public opinion, or what somebody in office imagines to be public opinion, is our ruler. If public opinion is active, the politicians and people sit up and take notice. There is a definite need for outspoken talking and thinking on public matters. Honest, intelligent fair discussion of our problems is immensely useful. So that every citizen may have his say and contribute to the formation of public opinion, The Journal invites letters to The Mailbag. Please limit communications to 350 words. The editor reserves the right to shorten all letters in excess of that length.

### BATTLE OF POETS OVER F. D. R. CONTINUES

To The Editor:

Alas! Alack! Ah, Woe is me! I'm up in arms. By Thunder! I walk the floor, and pull my hair. Then rip and snort and rant and tear. Or gnash my teeth in wild despair. Can it be true? I wonder!

Now in the paper recently I read with consternation That we who pay the tax, must pay

For everything from Z to A; Including fish eggs, yesterday For the chief of this great Nation!

I've been jipped, hoodwinked and robbed! My fondest dreams and wishes Were shattered, when I read the facts.

That money I had paid for tax Had gone to help our Chief relax— And buy embryo fishes! W. E. McCRACKEN.

Rt. 1, Box 22 Garden Grove.

### Science News

By WATSON DAVIS

More important than the actual discoveries and inventions being made today is the preservation of the right to engage in research. For several years the intellectual world has been shocked and disturbed by repeated instances of eminent men of learning forced to leave their work because of intolerance of governments to race, politics, religion or other special viewpoints.

This has brought forth many protests, among them declarations of the British and American Associations for the Advancement of Science, the Rockefeller Foundation, and various codes of ethics and protestations. In England the journal, Nature, has editorialized persistently to arouse the scientists to impending danger.

"If science and learning are to reign everywhere the immunity from interference or persecution to which they have been regarded as entitled in all civilized communities for several centuries, it will not be by the efforts of a minority of scientific workers." This is Nature's latest editorial warning. "Science will only be re-established in its unique place among the interests of mankind when scientific workers everywhere recognize their responsibilities and are prepared to make fresh sacrifices in the cause of intellectual freedom. They must educate their fellow citizens to the realization that science is a common interest of mankind, and that whatever may be the barriers or the difficulties or the struggles between them, civilized societies must accord a certain immunity and tolerance to those engaged in scientific discovery and learning."

Besides this, there must be a wide-spread recognition by scientific workers of the normal conditions of tolerance and immunity for scientific pursuits in a civilized State. These restraints—not to meddle with or be dominated by divinity, morals, politics or rhetoric must be clearly understood and firmly accepted by scientific workers. The loyal acceptance of such a code of ethics or discipline is all the more important today, not only if objective research in the social sciences is to be pursued, but also if what is often termed the frustration of science is to be overcome." ### ATTENTIVE TO HER JOB

"I may say I'm regarded as quite smart," announced the applicant for the stenographer's position. "I've won several prizes in crossword and jigsaw puzzles, and I hold picture competition lately."

"Yes, but I want someone who can be smart during office hours." "Oh, this was during office hours."—Coastal Cattleman.

### PUBLICITY TO THE END

"Well," said the business man, "you better put in a clause about my employees. To each man who has worked for me twenty years, I give and bequeath \$50,000."

"But," said the lawyer, "you haven't been in business twenty years."

"I know it, man, but it's good advertising."—The Ink Spot.

### A PATH TO HIS DOOR

"I see where they've been bestowing all kinds of degrees on Walt Disney lately."

"Yes, for inventing a better mouse!"

There's one thing that employers expect from people that work for 'em and that's cleanliness and neatness. I remember when my Aunt Pudy was workin' for the rich Jones family, doing the cookin'. Mrs. Jones walked into the kitchen one day and got boiling mad and you couldn't blame her. She says "My goodness, Pudy, all the pots and pans are dirty and this kitchen is a mess! I'll take you all night to clean this up. What have you been doing?" And Aunt Pudy says "Nothin', Mrs. Jones, your daughter has been showin' me how they boil a potato at her cooking school."

DALE  
CARNEGIE'S  
Day  
—By—  
Day  
Philosophy

Do you have trouble remembering names? I am sure many of you do, for it is a very common failing. If you are a salesman or a professional man, it is most important for you to be able to recall the names of the people you meet. Not to do so, may mean a loss of income.

Here are three laws of memory to help you:  
1. Attention.  
2. Repetition.  
3. Association.

And here are some examples which may also be helpful:  
Attention: Listen carefully when a name is introduced. If you don't hear the name distinctly, say, "I beg your pardon, I didn't get your name." When the man repeats it, it will be an unusual name and give you a chance to discuss it. If there is any doubt as to how he spells his name, ask him how it is spelled. This will impress it on your memory.

Repetition: After hearing a name repeat it over and over again, blocking out other thoughts while so doing, and connecting his name with his features. There probably aren't a dozen men in the world who look enough alike to mistake one for another. Imagine you're lending that man ten dollars; wonder if he'll ever return it to you. I'd be willing to bet you'd remember both his name and his face, then.

After he has left, recall his features and repeat the name to yourself. At home that evening, think of the men you have met during the day and repeat their names aloud, while recalling their features.

Association: Build up an association between the name and the face.

In one of my public speaking classes, we had a Mr. Albright. Mr. Albright is in the sand business. So we made up a slogan: "Sand makes all bright." Another student was named Doolittle. He sells automobiles. Our slogan ran, "Do little and you won't sell cars." Mr. Goldkey was a lumber dealer. What is easier to remember than "There is gold in the lumber business." There was a Mr. Baker. He had white hair. Everytime I looked at Mr. Baker I visualized him as having had his head dipped in flour. And so we went on down through the list of forty men constituting this class.

Does this sound silly? Well, you know about it except yourself? You very likely appear silly to yourself at times, anyway, when it may not serve a good purpose. Most of us do. But don't fail to remember that your success may hinge on your ability to compliment another man by remembering his name.

The late George Horace Lorimer, while editor of the Saturday Evening Post, reminded us that it was a good thing to have money and the things that money can buy; but that it is good, too, to check up once in a while and make sure we haven't lost the things that money can't buy.

### Remarkable Remarks

There is not an enterprise anywhere in America that could be conducted successfully under the haphazard methods characterizing the business of the courts.—Attorney-General Homer S. Cummings

It is paradise. We live like gentlemen.—George Osborne, British visitor to Devil's Island, quoting one of the convicts.

They all seemed very much alike to me.

—D. Kendall, American tourist, on the girls of Holland.

It's only a diet-deficiency which makes them crave all the meat they see.

—Dillon Ripley, Philadelphia back from Dutch New Guinea, explaining cannibals.

HIS LEADING  
An old Highland clergyman, who had received several calls to various parishes, asked his servant where he should go.

His servant said, "Go where there is most sin, sir."

The preacher concluded that the servant's advice was good—and went where there was the most money.

I'LL TELL YOU....
